The Delaware Trustee undertook the following, after the conversion of the cases in Delaware to Chapter 7 in accordance with the duties of Trustee set forth in Section 704 of the Bankruptcy Code:

(1) During the Delaware administration of the Chapter 7 cases, your Trustee was required to gather all information to understand the extent and scope of the Debtor's assets, their location, value, and condition. Your Delaware Trustee was required to immediately devote full time and effort to develop and implement a plan to administer the estates under Chapter 7. The initial stage included the following:

(A) Assemble a professional team, including interview and retention of counsel, and qualified financial advisors.

(B) Identify, interview and retain a staff of former employees. The Trustee was required to travel to Chicago to complete this, which was critical to the initial stage to preserve and maintain this estate. The Debtors were very large and complex companies operating in a highly specialize area. It was important to keep key employees involved to assist this Trustee and any successor Trustee in the liquidation process. At this time it was determined to seek Court approval to permit limited operating authority.

(C) Identify and determine security of premises and identify location of all bank accounts and records.

(D) Develop a process of responding to all customers and telephone inquiries.

(2) The second stage included development of an initial liquidation plan and identify and evaluate assets requiring immediate attention, liquidation, which included the following:

(A) Trustee engaged in numerous conferences with former employees of the Debtors and financial advisors regarding assets.

(B) Trustee reviewed certain of the Debtors business records, assets, sales agreements and pending transactions.

(C) Your Delaware Trustee met and interviewed prospective auctioneers to develop an orderly liquidation plan for the sale of furniture, fixtures, and equipment of the Debtors at locations throughout the United States.

(D) Numerous conferences and telephone discussions took place to review and analyze pending sale transactions and the closing of prior sales. With the assistance of his professionals your Delaware Trustee moved forward with these transactions and requested Court approval of negotiated and renegotiated sales for the benefit of the estate.

(E) Your Delaware Trustee took part in numerous discussions, teleconferences and responded to correspondence and e-mails regarding the Debtors' non-debtor foreign affiliates and subsidiaries.

(F) Your Delaware Trustee also discussed with financial advisors regarding security and maintenance off premises of all financial records of the Debtors, including computer records and systems, computer backups, bank accounts, cancelled checks, loan documents and other corporate records, minutes, SEC files, financial statements and tax returns.

(G) It was determined that timing was of the utmost importance and the Delaware Trustee devoted a substantial amount of his time to administration of these estates, particularly set forth on Exhibit C attached hereto.

(3) The third stage of the administration involved an initial review for possible preference and avoidance actions and development of a plan to collect accounts receivables. At the time of the transfer there was an ongoing investigation of all of the Debtors bank accounts located throughout the United States.

8. Your Trustee, his secretary and office staff, responded to hundreds of telephone calls and faxes from customers and creditors throughout the country. While some of the contacts are set forth on the Trustee's Exhibit C, the number of contacts were too numerous to list by the Trustee's office staff and compensation is not being requested.

9. TRANSFER OF VENUE.

After the cases were transferred to the Northern District of Illinois your Trustee undertook provide all information and documentation to Andrew J. Maxwell, Esquire, to allow for an orderly transition of the cases. In addition, your Delaware Trustee, at the request of Mr. Maxwell, closed the Delaware Chapter 7 estate bank accounts and transferred the funds to Mr. Maxwell as the Successor Trustee. The accounting is reflected on the Trustee's report attached hereto as "Exhibit A".

10. Numerous telephone calls and other work was performed by your Delaware Trustee and his office staff, after the transfer of venue to Chicago, which is not set forth in detail in attached Exhibit C, nor is any compensation requested therefore.

**Schedule of Cash Receipts and Disbursements**

Amounts reported should be per the debtor's books, not the bank statement. The beginning cash should be the ending cash from the prior month or, if this is the first report, the amount should be the balance on the date the petition was filed. The amounts reported in the "CURRENT MONTH - ACTUAL" column must equal the sum of the four bank account columns. The amounts reported in the "PROJECTED" column should be taken from the SMALL BUSINESS INITIAL REPORT (FORM IR-1). Attach copies of the bank statements and the cash disbursements journal. The total Disbursements listed in the disbursements journal must equal the total disbursements reported on this page. A bank reconciliation must be attached for each account.
